

Milestones in Child Development 0-6 Years

Free workshop for Parents with Children Aged 0-6

Sometimes parents worry, because they have wrong expectations of what their child should do at which age.

The following topics will be covered:

- What can realistically be expected
- Where to get reassurance if your child is different
- What parents can do to support their child to make the most of these developmental phases
- The psychological development in this age group

Face-to-Face Workshop, **REGISTRATION IS ESSENTIAL**
