
Multicultural Access and Referral Service - Arabic Bilingual Link Worker needed

The Multicultural Access and Referral Service (MARS Project) it's a service funded by CHSP, managed by TMN and it's currently seeking for an Ethno-specific organisation that would like work in partnership with us, by delivering free information, support, and referral service to people 65+ and their carers.

MARS project works with a brokerage model, where TMN contracts ethno-specific organisations to assist in the delivery of the service. Through a contract with an agency, TMN offers full training to a designated worker, supports the worker with promotion, program updates and casework supervision and pays the agency for the training and delivery of the services to the community.

The project is currently working in partnership with 5 Ethno-Specific and multicultural organisations to support Croatian, Khmer, Lao, Macedonian and Spanish communities within SWS LGAs and is seeking for an Arabic bilingual worker that would like to join the project.

TMN is offering a **contract of a maximum of 10 hours per month at \$45 per hour + GST** to an organisation that can allocate an existing employee (with casework skills and preferably with aged care background).

The project model is designed to engage a worker that is already in contact with the community, has experience in casework and the delivery of information and referrals might be able to extend their workload by a couple of hours a week to offer MARS service.

TMN aims to deliver the highest possible quality service to aged consumers and is looking for an organisation who want to be part of a company that has a growing reputation for service excellence.

If you would like to join us or if you require further information, please do not hesitate to send us an email to mars@tmn.net.au and we will get in contact with you shortly.

Kind Regards,

Francisca Loyola-Sandoval
MARS Coordinator
