## Course overview

This English and Digital Skills course will cover nationally recognised and accredited units of competency to help navigate the digital world. It integrates communication, literacy, numeracy and digital skills which can be used in the real-world across various industries. The program supports learners who have limited digital experience, to build confidence and capability in this area, as well as building on their English language skills.

## Units of competency

- FSKLRG011 - Use routine strategies for work-related learning
- FSKDIG001 - Use digital technology for short and basic workplace tasks
- BSBTEC101 - Operate digital devices
- FSKRDG008/010 - Read and respond to workplace information
- FSKOCM002/007 - Interact effectively with others at work

## Key benefits

Digital skills for work and study

Communication skills

Reading skills

Writing skills
