AGED CARE REFORM INFORMATION SESSIONS 2026

**FREE information sessions
 for aged care providers**

The South West Sydney Ageing Forum, supported by the Department of Health, Disability and Ageing, invites CHSP and aged care providers to a series of free sector-focused information sessions.

The Aged Care Act 2024 is now in place, and providers are working through what this means in practice. Join us for local information sessions held across three local government areas in 2026.

These sessions will give you clear updates, practical advice, and the chance to speak directly with the Department of Health, Disability and Ageing. You'll also be able to ask questions, connect with other providers, and enjoy lunch.

What's included:

- Clear updates on the Aged Care Act and common challenges
- Practical support and useful resources
- Question and answer session with Department representatives
- Lunch and networking
